

About Us

Mission

The Food Project's mission is to create a thoughtful and productive community of youth and adults from diverse backgrounds who work together to build a sustainable food system. Our community produces healthy food for residents of the city and suburbs, provides youth leadership opportunities, and inspires and supports others to create change in their own communities.

Vision

We envision a world where youth are active leaders, diverse communities feel connected to the land and each other, and everyone has access to fresh, local, healthy, affordable food.
