

GROW WELL

A series of gardening workshops to help you maximize your space & increase your yield!

NEW WORKSHOP: PLANNING AND PLANTING BASICS

An overview of the basics to square foot gardening, combining two previously run workshops, "Planning your Garden" and "Planting Tips and How-To's." This workshop will teach you how to layout your garden, and cover topics such as direct seeding, transplanting, thinning, and more!

Open to the public; this session is required for all Build-a-Garden applicants who have completed a staff-led site visit and have been approved for a raised bed or container garden kit. All are welcome.

Choose from 3 dates:

*Saturday, March 31st, 2:00 PM - 4:00 PM
Saturday, April 14th, 10:00 AM - 12:00 PM
Wednesday, April 25th, 6:00 PM - 8:00 PM*

TIPS FOR GETTING STARTED EARLY

We will share tips for getting a head start in the garden so you can be eating from your garden by the first week in May! Participants will receive complimentary seeds at the workshop.

Saturday April 7th, 10AM-11:30AM

PESTS, DISEASES, & HARVESTING TIPS (OFFERED AT OUR ANNUAL CITY FARM FEST)

This workshop will cover the most common pests and diseases so you're able to identify them early, and review harvesting tips for early season crops, such as lettuce, salad mix, spinach, and peas.

Saturday May 12th, 10AM-11:30AM

Location for all workshops:
Dudley Greenhouse
11 Brook Avenue, Roxbury
