

**The Food Project**

## **Wenham Grower's Assistant (1)**

### **Who We Are**

Youth. Food. Community. Three important issues that intersect in one place: The Food Project. Here, we believe that food is a unique vehicle for creating personal and social change. Nothing else ties us so intimately to each other and the planet we share, affecting our health, the climate, culture, and poverty and privilege around the globe. If we — young and old from all walks of life — can unite to change the food system, we can change the world. From our urban and suburban farms to our community education programs, we aim to do just that by bringing together youth and adults from diverse backgrounds who work together to build local and sustainable food systems.

Since 1991, The Food Project has built a national model of engaging young people in personal and social change through sustainable agriculture. Each year, we work with more than 120 teenagers and nearly 2,000 volunteers to farm on 70 acres in eastern Massachusetts in the towns and cities of Wenham, Lincoln, Boston, and Lynn. We consider our hallmark to be our focus on identifying and transforming a new generation of leaders by placing teens in unusually responsible roles, with deeply meaningful work. In addition, we help others grow their own food and provide training resources based on all we have learned.
